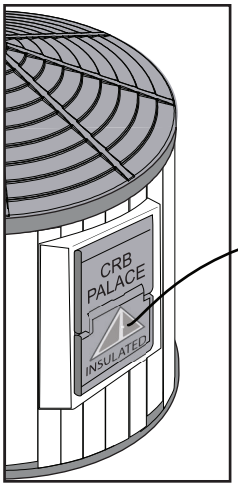
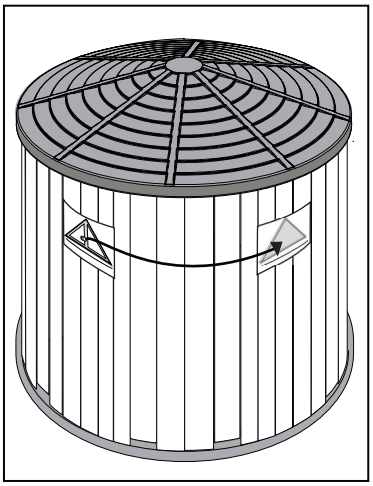
SUMMER COOLING
SER FRESCO EL VERANO



STEP 1

On front door remove the white thumb screw and move to the storage position on side panel. Use the thumb screw to secure the pane to the side panel.

En la puerta delantera retire el tornillo blanco del pulgar y muévase a la posición de almacenamiento en el panel lateral. Utilice el tornillo del pulgar para fijar el panel al panel lateral.



STEP 2

On rear panel remove the thumb screw and move to the side panel for storage. Use the thumb screw to secure the pane to the side panel.

En el panel trasero retire el tornillo del pulgar y muévase al panel lateral para el almacenamiento. Utilice el tornillo del pulgar para fijar el panel al panel lateral.

TIPS FOR DOOR TRAINING

1. While dog is watching, place treats inside the back of the dog house. After he gets the treat, repeat until he becomes comfortable with the door.
2. Place dog's favorite bedding in the house.
3. Hold or tie open the door until dog is used to house.
4. Temporarily remove bottom half of door (see Illustration B) repeat above tips.
