

Adding Palace Central Heater APP to your Phone

A Strong WIFI signal near the dog house is required to use the WIFI APP. This can be achieved by close proximity to a router or through the use of a WIFI extender (sold separately).

On your Smart Phone

1. Download APP – Scan the QR Code with your phones camera to download the Cloud Intelligence app for your smartphone. (Also available on Google Play and Apple Store)

2. Make sure Bluetooth is enabled on your phone (so it can find the Dog Palace Central Heater)
3. Connect to WIFI (you will need **username** and **password**)

Heater/Remote

4. Set the heater next to your WIFI router and plug it in.
5. Turn on the heater with the power button on top of the unit. Leave it on for 1 minute then turn it off.
6. Then restart it and turn on the remote. Hold the Temp Set Button for 5 seconds until the indicator light on the heater unit flashes continuously.

On your Smart Phone

7. Follow the prompts on your phone to add a device using Auto Scan
8. Add the Dog Palace Central Heater
9. Wait for the Connection
10. Power on the heater with the APP

You can now control the heater from anywhere that you have phone service.
